## ADRENALINE MODE

*Merciless playing mode for experienced Envyra players.  
(Not for the faint-hearted!)*

PLAYER COUNTS: 2 - 4 Players

REQUIREMENTS: Envyra base game with 2 Easter Promo Tiles (other expansions optional)

### SETUP & RULES:

Before you start, prior setup, **use 2 Easter Promo Tiles** (replace regular 4 & 5 VP grey Tiles). Then, **remove 3 "3-4p" marked Tiles** (for all player counts, include them among Tiles removed during setup; *btw, this results in removing 2 more Tiles in 4 player game comparing to regular rules*).

- For 4 Player game, use Playing Grid like  
in 3 Player game (3x3 grid).
- For 3 Player game, use Playing Grid like  
in 2 Player game (2x3 grid).
- For 2 Player game, use (only) whole first line  
of the Playing Grid (1x4 grid)

Other rules for the adrenaline mode game are the same as in regular game.

*If you use Equilibrium expansion in 5 player game, we recommend not to use 4 Points Equilibrium cards (displaying 3 Elements).*
